### New Water Main Installation Planned for 49<sup>th</sup> Street

Dear Valued Customer,

The City of Norfolk Department of Utilities has hired T.A. Sheets to install a new water main on 49<sup>th</sup> St., between Powhatan Avenue and Elkhorn Avenue, as shown on the map to the right.

This project will begin during the second week of May and is planned to be completed in early August.

Neighborhood access will be maintained with thru-traffic detours around the work zone. Pedestrian traffic will also be maintained, but no parking will be allowed within the work zone.

We look forward to completing this project, which will improve water service in the area, and will do our best to minimize unavoidable disruptions associated with the construction. If you have any questions, please do not hesitate to contact the City's on-site Construction Inspector, Michael Gomes, at 390-7535. You may also contact Megan White, Project Manager, at 664-6540.

Sincerely,

Kristen M. Lentz, P.E.  
Director of Utilities
